The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by Steamboats, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or connected to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of Steamboats on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

THIS Company insures property in two classes, designated as Farmers' Department and Merchants' Department, the accounts of which are kept in separate books, there being no connection, other than that the business of each is under the supervision of the same Board of Directors, thus giving the public the advantage of two Companies, with the expense of one office.

Losses in one class can in no way affect the funds of the other, as the Charter provides that each class shall pay its own losses.

FARMERS' DEPARTMENT is confined to farmers' buildings, detached dwellings, and their contents.

MERCHANTS' DEPARTMENT will embrace property of more hazardous description.

EMPIRE INSURANCE COMPANY, Union Springs, N. Y.

CAPITAL .... $100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c, and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional stores may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the Empire Insurance Company, do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK MUTUAL BENEFIT ASSOCIATION, Union Springs, N. Y.

THIS Association is formed, for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

Conditions of Membership.

A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable [illegible] with which losses are settled. VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

SATURDAY MORNING, MAY 29, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

☞ TWO GOOD COMPOSITORS can find steady employment by applying at this Office *immediately*.

MILWAUKEE & MISSISSIPPI RAIL ROAD.—The Madison *Argus*, commenting upon a paragraph in our paper a few days since, responsive to a wish expressed by the Monroe (Green County) *Sentinel*, to see the Milwaukee & Mississippi Rail Road run through Janesville and thence through Green County, has the following among other remarks:—

Our Green Co. cotemporary desires (perfectly right and natural) to see this road run to Janesville, and through Green Co., and the Milwaukee *Sentinel* speaks as "by card," and says:—"Patience a little longer, and both you and we shall have our hopes realized." So the *Sentinel* "hopes" to see the road run to Janesville and through Green Co. If its "hopes" are to be realized, the sooner we *know* it, the better. We shall most assuredly look to our own interests if abandoned by Milwaukee, and if it is not for her interest to secure the trade and travel of this county and of those west of us, there will be no effort to force them upon her.

Our Madison friends are unnecessarily exercised. We certainly *do* hope to see our Rail Road pushed through to Janesville with as little delay as may be, and entertain a confident belief that it *will be done* by the first of January next. But we do *not* desire to see Madison "abandoned." It is within the compass of posibilities, we suppose, that the road should touch both points; Madison on the direct route and Janesville by a branch; the latter to be extended, as may be deemed adviseable, Westwardly through Green and other counties.—And we respectfully suggest to the *Argus* and other Madison friends that nothing is easier for them than to make *sure* of an early Railroad connection with Milwaukee, by putting their shoulders with ours to the wheel of this great enterprize and "heaving" all together. In no more effectual way can Madison "look to her interests."

THE NEW MADISON HOTEL.—Messrs. L. J. FARWELL, L. B. VILAS and E. B. DEAN, Jr, Executive Committee of the Madison Hotel Co., invite proposals from builders for the construction of their contemplated new Hotel, according to plans and specifications to be seen at Madison. The proposals must be sent in by Tuesday *next*, June 1st, at 6 o'clock P. M. Contractors are invited to submit proposals for the whole in one contract, and also separate proposals for the entire mason work and carpenter and joiner work separately, including all materials. Proposals are also invited for brick and stone. The Company are resolved to have the new Hotel entirely finished and ready for acceptance on the 7th day of December next, and Contractors will be required to give satisfactory bonds for the fulfilment of their contracts with strict fidelity in every respect.

MADISON in this particular has set MILWAUKEE an example worthy of speedy imitation. The most pressing want of our City at this time is a first-class Hotel; one that will compare favorably with the TREMONT at Chicago, the BURNET at Cincinnati, or the WEDDELL, or AMERICAN, at Cleveland. Such a Hotel would constitute, in itself, a strong attraction, and during the pleasant Summer months, when fishing and shooting in such abundance and of such superior quality, can be found all over our State, would invite hither crowds of visitors from the Southern and South-Western States. It would give to all Travellers, too, whether for pleasure, or business, a favorable impression of our City, and tempt them all to remain longer in our midst. But why enumerate advantages which must be obvious to all? The question is too clear for argument. Milwaukee needs a first-class Hotel and *must* have it. Is there not enterprise enough among our wealthiest citizens to organize a oint-stock Company, as has been done at Madison, and start the project without further delay?—Who will entitle himself to the public gratitude and "a civic crown" by taking the lead in this matter and pushing it through?

THE WISCONSIN BANKING LAW.—After a careful examination of this law, (which is to be submitted to the people in November,) we do not find in it so much to condemn as we expected. The clause allowing Rail Road Bonds to be taken in pledge for circulating notes, prejudiced our mind against it, and we still think it the most objectionable feature in the bill. The restrictions are such, however, that the probabilities are in favor of the bill-holders being protected from loss.—*Thompson's Bank-Note Reporter*, 21st inst.

The *Reporter* took very strong and decided grounds, at first, against our General Banking Law, on account of the Rail Road Bond feature.—Further inquiry and reflection, however, seem to have satisfied the editor, as we think they must do every dispassionate and disinterested man, that the restrictions are such as to secure the bill-holders against loss, which is the main desideratum in all Banking.

GROWTH OF RACINE.—The Racine *Advocate*, we are glad to see, like the other papers published in our principal towns, speaks encouragingly of the growth of the pretty young city in which it is published. From a late article in that paper we clip the following:

We have never before seen a place of this size in which so many dwellings were run up during so many improvements were in contemplation and preparation. They are making an early move on the Wilmot Plank Road,—they are determined to go on with the harbor, appropriation or no appropriation. They are surveying the line of the lake shore railroad—they are moving in the northern and northwestern plank roads. They are preparing for business building in the first ward—are finishing large dwellings in the second, and are putting up some fine ones, and great numbers of small ones, in the third, fourth and fifth. A rope walk is going in to operation, but as that is for the service of the people in other parts of the State, we consider it a State rather than city improvement. They are going on rapidly with the college, and will soon be getting up a better public school system. In short, they are doing more these hard times than most would have expected in the most flourishing days that could have been looked for.

A FIX.—According to the Hon. Mr. Washburn, a whig member of Congress from Maine, if the whig party declare in favor of maintaining the Compromise they must lose the North; and according to the Hon. Mr. Gentry, of Tennessee, if they fail to declare in favor of maintaining the Compromise, they must lose the South.—*Morning News*.

The "democracy" are in just the same "fix." According to PRESTON KING, of New York, an able and acknowledged leader of the party in the Empire State, the endorsement of the Compromise will be death to the Democratic nominee, while, according to Senator GWIN, of California, another pillar of the democratic church, a *failure* to endorse it will be equally fatal.

A CLIPPER.—The new and superb steamer *Southern Michigan*, running in the Southern Railroad Line, seems to have thus far gained a great reputation for speed as well as beauty. On one of her down trips, according to the Toledo *Blade*, she left Cleveland thirteen minutes ahead of the *Buckeye State*, and stopped at Dunkirk from half to three quarters of an hour. The *Buckeye* went directly through to Buffalo without stoppages, but did not arrive there until some half hour after the arrival of the *Southern Michigan*. On her return, she made the run from Cleveland to Turk's-Island light-house, 110 miles in 5 hours and three quarters.

☞ It is said the Hon Wm. Wright, formerly a Whig member of Congress from New Jersey, and the late whig candidate for Governor of that State, has joined the Democratic party.—*Commercial*.

Mr. Wright betrayed his own, and joined the Loco Foco party long since. It is now about time he should be recognized by that party. Such derelictions as his are not common in Jersey; hence they make the more of it.

DEMOCRATIC NATIONAL CONVENTION.— This body meets at Baltimore on Monday next, to nominate candidates for the Presidency and Vice Presidency. If the wires hold and the lightning is tractable, we shall have the news of the nomination here within a few minutes after the result is known in Baltimore.

"NEW CHURCH."

By request, the consideration of the "New Jerusalem" of the Apocalypse, or the "New Christian Church," now being established upon the earth, in the place of the old Christian Church which has accomplished its Mission and is passing away; which was presented to the *New Church Society* some few weeks since, will be repeated to-morrow morning at their hall, corner of Wisconsin and Main-sts., up stairs. The public are respectfully invited to attend.

Water Power, 2d Ward, Milwaukee.

Messrs. Editors: The reports circulating in the country relative to the water power at this place, are calculated to do injury to persons engaged in custom business on the race. You will confer a favor and set the public right in the matter, by making it generally known that the repairing of the dam is nearly complete, and that the machinery will be in operation without any mistake, from and after Monday, the 31st inst.

Respectfully Yours,
WALTER BURKE.

"WHAT I SAW IN NEW YORK": by JOEL H. ROSS, M. D. published by Derby & Miller, Auburn, N.Y.

The writer of these sketches is somewhat known to the public, and has a reputation for fairness which would add weight to any testimony which he might give, were his statements questioned; but he seems to have aimed merely at a plain, unassuming sketch of things and persons, customs and institutions in Gotham, and has succeeded in making a very readable book, giving much valuable information. It is only by reading such books that one small part of the world can tell how the vast majority live. Indeed vast numbers in our large cities do *not* live—they linger—vegetate—in a *pale*, sickly, starved manner, in dark, damp cellars, where no sun ever shines—no broom ever sweeps. This book gives some interesting information concerning this way of living which ought to be pondered on.

THE "FAKIR OF SIVA."—This clever artist attracted and delighted another large and discriminating audience last evening. His performances are graceful and entertaining, and his confectionery unsurpassed. The profusion with which he showers sugar-plums, bouquets, fruit, &c., among his auditors is especially calculated to win the favor of the ladies and the little folks. His apparatus is costly, extensive and elegant, his experiments curious and amusing, and his manner free from the clap-trap which so often disfigures these exhibitions. The "Fakir," it must be understood, gives an afternoon performance to-day, and another in the evening, with a great variety of new experiments.

ROUND THE LAKE STEAMERS.—It will be seen by the notice in our advertising columns, that the Steamers *Sultana* and *Wisconsin* have changed times; the *Sultana* having left here for Buffalo last evening. Mr. H. K. JEROME, the wide-awake Agent of these Steamers, is at his old post again on Main street, next to the corner of Huron, ready to provide passengers with tickets and berths for Buffalo. The Round-the-Lake Steamers are popular with the travelling public, and will continue so while good boats, attentive officers and clever agents, maintain the reputation of the line.

THE MENOMONEE BRIDGE.—The floats which sustain the bridge across the Menomonee, at the foot of West Water street, filled and sunk, a day or two since, carrying the Bridge down to water level, and interrupting the communication. We think these float bridges, one and all, should be indicted as nuisances. They are constantly out of order, and cost more to tend and repair them, than it would to build good, substantial Bridges, with lifting, or sliding draws.

BURGLARY.—About 9 o'clock Thursday night, the jewelry store of A. H. Hall, 227 East Water street, was entered by burglars by cutting a light out of the sash door, and near $70 worth of goods taken. The loss was small, as Mr. Hall, before leaving the store, took the precaution to lock up in his vault, the most valuable of his jewelry and customers' watches.

Mr. HALL offers $20 reward for the arrest of the burglar and the recovery of the stolen property.

HARPER FOR JUNE.—This capital Magazine is already at hand. The June number, of which *ninety thousand* copies have been printed, is rich in good things: ABBOTT'S Napoleon, BULWER'S "My Novel," "Drooping Buds" by DICKENS, "Bleak House," and a host of other literary *bon-bons*.—Copies of the Magazine may be had of ARNOLD & WILSON, and BIRD.

ENCOURAGING.—We received three days' New York mails last evening, bringing papers up to the 24th, the quickest yet, and only 24 hours behind travellers. One of our merchants arrived here in the boat, and found that letters which he had despatched from N. Y. 3 days before he left, had come on the boat with him.

THE SOUTHERN RAIL ROAD LINE.—It is reported that the fine steamer *Lady Elgin* will be here to-morrow to take her place in the line from this city to Chicago, in connection with the Southern Michigan Rail Road.

SOUTHERN MICHIGAN LINE.—Mr. CRUMMEY, the Agent of this popular line, is now prepared to put passengers *through* to Dunkirk, or Buffalo, from this port. He can always be found at his old stand, corner of Main and Huron Streets. See his advertisement.

GAS PIPES.—The Schooner *Handy*, from Cleveland, brought one hundred and eleven tons of Gas Pipes, Retorts, and other Castings, for our Milwaukee Gas Works. The Company are distributing the pipe about the streets, preparatory to laying it. They intend to light up by November.

SALE OF REAL ESTATE.—We learn that the lot on Main street, between Mason and Wisconsin streets, next north of Dr. Hewitt's brick block, was sold yesterday for $3,000. There are two wooden tenements of little value on it. The lot is 60 by 120 feet.

CHICKERING'S PIANOS.—WALL has just returned from the East, having obtained, among other things the agency of these unsurpassed instruments, which he will sell at manufacturer's prices.

People's Festival.

ADJOURNED MEETING OF THE COMMITTEE OF VIGILANCE, HELD TUESDAY EVENING, MAY 27, 1852.

BYRON KILBOURN was elected President *pro tem*.

The Treasurer, Dr. Jung, reported that $75 had been paid in, to defray the expenses of the Festival, and that it was estimated that about $50 more would be necessary.

It was thereupon

Resolved, That each member of the committee be required to raise at least one dollar more to make up the reported deficiency, and to pay the same to the Treasurer on or before Saturday evening, May 29th.

Resolved further, That the Treasurer be instructed to procure ribbon for the badges of the members of the committee, and that the members should procure them of him on the day of the Festival, at the Speaker's platform.

It was also

Resolved, That the Milwaukee and Mississippi Railroad Company be requested to sell tickets to and from Milwaukee, to those wishing to attend the Festival, at one-half the usual price.

Thereupon committee adjourned, to meet on Monday, May 31, at one o'clock P. M., at the Speaker's stand, on the Festival Grounds.

BYRON KILBOURN, President.
J. STARK, Secretary.

☞ Miss JULIA DEAN, a great favorite in the West, commences an engagement at Mr. RICE'S Theatre in Chicago on Monday next.

NORWEGIAN EMIGRATION.—We learn that Ole Bull, the violinist, who is now in this country, has made certain propositions of reform to the Norwegian Government, and that in the event of its unfavorable action thereon, a system of Emigration to the United States, on a stupendous scale, will be commenced. It is said that whole districts are prepared to leave. A number of the emigrants it is expected will settle in this State and Wisconsin.—*Chicago Democrat*.

For the Sentinel.

MAY FEAST.

The festival which is to come off next Monday is not only a very popular one through the larger part of Germany, but so old too, that its origin disappears among the mysteries of the oldest Heathen times. The religion of the German antiquity being a mere natural one, so their ceremonies and festivals too were constituted for worshipping the changes, phenomena and bounties of nature. The general resurrection of the dead, like nature at the beginning of the spring, was allegorized in the Goddess, Ostra, of which Goddess even the missionaries in christianizing the people, borrowed the homely-sounding name for the Passah (Ostern, Easterday.)

The night before the first day of the month of "delight," and the following day itself were devoted to the worship of the Goddess. From the settlements around the mountain in the neighborhood, all the people gathered this night on the top of the mountain or hill, where huge stones piled up to an immense altar, towered above the thick forest, and the whole country, while in the very night, from the top of the altar, large piles flamed through the darkness, like vast lighthouses for the people of the woods, who made for the altar, and corresponding fires kindled on the next holy mountain and still farther so, as far as the eye could reach. While the common people were gazing up to the mysteries of the altar, the princes, nobles and priests consummated there the holy ceremonies of their worship and at days breaking the rising Spring—s in was cheered and the day spent in feasting.

Christian Kings and Priests were afterwards, of course, opposed to this festival, like to all other relics of Heathenism, and Charlemagne, after having subdued the Saxons, forbade them these mighty gatherings on peril of their lives. But many of the people, though subdued and driven to baptism by fear of the hangman, secretly retained their old fashion and secretly gathered the night before the 1st of May on hilly places, especially on the rough and almost inaccessible Blocksberg in the Harz mountains, on the boundary of the Kingdoms of Prussia and Hanover, and of the dukedom of Brunswick. Hence the priests, of course, disliking this festival, brought up the common talking, that the Fiend gathers on this night all the wizards and witches on the top of the Blocksberg and this night (night of St. Walpurgis) was many hundred of years believed, & is still spoken of to be the meeting-night of the Devil and his Witches. The heathens themselves may have favored this superstition, spies, beadles and soldiers being thereby discouraged from approaching their meetings, and many a poor old woman who has been burned alive for being a witch, verbally confessed (by means of the tortures to be sure) to have been of the Fiends company on the Walpurgis night, and to have made their journey to the Blockeberg, riding upon an old broom, oven-fork, or he-goat thro' the air.

The celebrated "Walpurgis-night" in Goethe's Faust may furnish the lovers of the German classic literature with a most spirited description of this barock phantasy.

Neither religion nor superstition, however, was powerful enough entirely to destroy the old custom, and yet in the hilly countries of Germany, Walpurgis-night has its charms. The boys are kindling old brooms, barrels and brush as much as they can get on the mountains, hills and elevations, and all the people are turning out for enjoying the view of the fires shining from the mountains, near and far. The day is a feasting day in many countries of Germany, and even the "good emperor Joseph (the second), sanctioned this day as the Spring feast day, by fixing the opening of the "Augarten" (imperial park) for the whole public on this day.

In the Eastern part of Germany, which was conquered by the Germans from the Slaves, old slavish customs prevailed, but very similar to the others before mentioned. On this day, the boys "drove out the death," that is to say they carried a scarecrow, performing the character of the death (or winter) through the streets, hailing the spring and finally threw the scarecrow in a stream.

Besides this first of May, there are two other days, which, in other counties of Germany, and sometimes together with this day, were solemnized as "Spring Feast Day's": the Monday after Whit Sunday and the day of St. John, (Springs end, June 24.) Whit Sunday, as Uhland sings, is the festival of joy, which the forest and the prairie celebrate. On this Sunday, at mornings time, everybody likes to have his abode adorned with green leaves and young trees (May-trees.) So the houses are green with leaves, and the entries and the rooms; cities and villages, both festively dressed like their people, and flowers are not spared on this day.

Correspondence of the Sentinel.

Glances at the Interior.

Watertown, May 27.

Messrs. Editors:

Leaving the dust and *cold* of the city yesterday we rode to this place comfortably on planks, except four miles; for we chose the new Lisbon road as being shorter, newer, less traveled, and clear of the frightful Iron Horses on the Railroad. This, which will soon become the favorite route, is now planked except the four miles between Hartland and Mr. Dougherty's, and the men are at work upon that. Your statement of the number of plank roads leading from Milwaukee, in the *Sentinel* a few days since, falls short of the true number. We have the Humboldt road, 3 miles, nearly complete; Green Bay road, 1 mile, nearly complete; Fond du Lac road, 15 miles, complete; Lisbon road, 17 miles, complete; Wauwatosa road, 5 miles, nearly complete; Watertown road, 45 miles, complete; Waukesha road, 5 miles, complete; Janesville road, 10 miles, complete, making 8 Roads and 131 miles.

Observations were made which satisfied us that it is really colder, and the season less advanced at Milwaukee, than at Watertown—as remarked by the intelligent editor of the Chronicle. At Milwaukee the white oaks are just putting out their leaves—which are yet partially enveloped in the red scales of the buns—or as we may say the oak was in the red. But here the leaves are fully formed, expanded, and have begun to assume the rich green of their summer dress. Other plants indicate about the same difference; and we noticed several of the wild flowers in full bloom here that have not yet shown their petals at Milwaukee; among them the Zizia, the wild Geranium, the Menganthus, the white Water Ranunculus &c.—There can be no doubt of the facts that we at Milwaukee, are from two to three weeks behind Watertown, however, humiliating it may be to our citizens. Accurate and continued observations with the thermometer confirm the same fact and show that the summers are warmer and the winters colder in the interior of Wisconsin than on the lake shore. There is also, (contrary to what at first thought would be supposed,) more rain in the interior.

We found the beautiful white Waukesha Limestone cropping out on the Lisbon road at the crossing of the Menomonee, and also at Lisbon.—At the latter place Mr. Graves was employed quarrying it with a view of supplying Milwaukee with caps sills, flagging, and curb-stones. This, with the facilities of the plank road, he is enabled to do at a very moderate rate. Every sidewalk in our city should be supported by a curb of these stone 4 inches thick and 18 inches wide. The cost would be but little more than the plank, held up by little sticks, at present used, and they would have the advantage of being permanent, and useful—of answering the purpose.

J. A. L.

☞ We resume again this week the publication of the Port List. Our Lake business opens remarkably well, and it is likely to continue better for the season. The whole number of arrivals up to this time, is 138; of these 91 are steamers, 40 propellers, and 7 sail vessels.—*Port Washington Blade*.

Notwithstanding the great quantity of wood got out the past winter, it is feared that the supply will fall short long before the close of navigation. The steamers take large quantities from this port—generally enough to make a through trip. Choppers will have to be set to work soon to get a supply ready and seasoned at the rate the present supply is going off.—*ib*

Correspondence of the Sentinel.

NEW YORK, May 20, 1852.

Messrs Editors:

Having at length arrived in Gotham, I will just drop you a line of the incidents of travel.—By elegantly printed cards distributed at the Hotels in Buffalo, and on board the Boat, before reaching port, we were informed that on the boats *Newton* and *Hendrick Hudson*, through passengers would be preferred as to state-rooms, &c.—But what was our disappointment, on coming on board of the steam-palace, *Isaac Newton*, as she was called in the bill, I hastened to the office to get a state-room in the upper cabin, when I could not get within a pistol-shot of the sedate looking Clerk, who was very leisurely distributing his tickets to all those gents who had elbowed their way to his window. I showed him my "through ticket" and the promise, but he coolly told me the rooms were all taken, long ago, and said I could have a birth in the "lower cabin."—Down I went—tumbled in and slept all night, in a birth that had not been aired—nor had the bed or bedding been aired this Spring—all was cold and damp as a tomb, and from the villainous cold I took while in it, I am inclined to the opinion that if the births are all like that, many a tomb will be occupied by the unfortunate passengers of these *palace-steamers*, as the owners call them.

The New Yorkers say the owners and managers of the line ought all be indicted for keeping such damp places for people to sleep in.

Jenny Lind Goldschmidt is here singing—and oh! the crowds that go to hear her. Tickets cannot be had, tho' sold at 1, 2 and 3 dollars, they are all bought by speculators, and command six dollars each, and not half can procure them at that. These Gothamites are a queer set of fellows—and do up things in their own way, and whether going to see Tom Thumb, the Kentucky Giant, or to hear Ole Bull, or Jenny, they "go it with a rush."

Jenny is to give her last Concert on Monday night at Castle Garden, when I hope I shall be there to hear her.

CIRCUIT COURT.

Trial of James Connaughty and Patrick McDonald, for the Murder of John Gullen.

BEFORE JUDGE HUBBELL.

James A. Mallory for Connaughty, Doran & Smith for McDonald.
District Attorney A. R. R. Butler, assisted by J. E. Arnold, for the State.

THURSDAY EVENING, May 27.

Hugh McGrath—Was down at the river on that Sunday night in charge of a dry dock; was at S. E. corner of Helfenstein's warehouse, sitting on a thrashing machine; thinks he was asleep, and some noise of a wagon awoke him; stepped to S. W. corner of warehouse to see what it was; think wagon stopped near Reed's warehouse; walked up and down the street some minutes; it was chilly; heard a noise in the water; thought it was a fish jumping; had heard a noise about 11 o'clock S. E. of him; looked and saw a man standing near Reed's warehouse; west of the lime shanty; looking out into the river; he stood about a minute, and then walked off North; in a few minutes after the first time heard the noise of the wagon a second time; think it was going up Main St; heard no steps of a horse; wagon went as if on a half trot; this was towards daylight.

Cross Examined—when first heard the wagon didn't hear it more than 2 or 3 minutes; moon came up about 12 o'clock; it went out of sight shortly; it was cloudy and pretty dark; thinks it not over 10 or 12 minutes between times of hearing the wagon.

Patrick Conley—Went to Connaughty's house on Monday and Tuesday; close to the back door there was a pile of dirt, and a small rolling stick with blood and man's hair upon it of the color of Gullen's, have not seen the stick since; saw blood near the door; there was a wagon between the houses; saw blood on the bottom boards, crossing all the boards; blood appeared rather fresh.

Cross Examined—box part of wagon was there—don't recollect seeing the wagon there Monday—saw Gullen's father and brother there; gave the stick to Sheriff White; saw men picking up chips with blood on them; noticed blood on the end of the dumping boards.

FRIDAY MORNING, May 28.

Thomas Curtin—knows Connaughty; knew Gullen; lived down near the South Pier on Erie St; heard of Gullen's death; didn't hear any noise on that night; (the witness was here dismissed being the wrong person.)

Patrick Conley recalled—was present when body was taken out of the river; was searching for the body; was among the first to get to the place; it was yet in the river; helped to take him out; body had on black vest and handkerchief; thinks bluish overalls; shirt was torn off the arms; knew it to be John Gullen. The pockets were searched—don't know by whom.

Cross Examined—don't know that body had been removed from the centre of the river towards the shore.

By a Juror—never saw anything in Gullen of bad habits.

JOHN SAVAGE—Recollects the case—saw Connaughty on Monday in Huron-st. about twenty yards from his own house; about 11 a. m., Connaughty was sitting on the sidewalk near corner of the alley; witness had a hog he wanted to sell: Connaughty went with him and prized the hog; knows nothing more about the matter.

Cross-examined—Heard a noise the night before about 12 or 1 o'clock, like a man making pitiful moans; heard no wagon; saw Gullen about 4 o'clock on Sunday; Gullen drank nothing; offered him something but he declined saying he was going to christening; thinks the moan was somewhere towards the alley where prisoners lived; heard window opening; didn't go out because frequently hear noses.

Direct resumed—Gullen had on a black cravat, black coat, grey over-alls, and black hat; body had on same pants when taken out of river.

JOHN WHITE—Sheriff of Co.—Was Sheriff in June last; assisted in arresting prisoners; Deputies and City Marshall were present; searched the house; saw at Connaughty's house a pair of pants and woman's dress with blood on them; they had been found by the other officers; don't recollect much about the appearance of the clothes.

Cross examined—The bundle of clothes in court is the same as was found.

WM. WEDEMEYER—was City Marshal; assisted in the arrest and search; was there 17th June; found a suspender in Connaughty's house; there was soft place under floor of C's house, about 6 feet long; had it dug up; found the suspender about 18 inches or 2 feet deep; it seemed as if it had been there only a short time; saw nothing on it; gave it to one of the Gullens.

Cross Examined—ground was filled as well under the house as outside; dug down to hard ground; it was wet under the house to the north.

Dr. Blanchard—is a physician; assisted in examining body; (witness corroborated Dr. Hatchard's testimony as to wounds on head; edges were ragged as if not done by a sharp instrument;) no marks of disease about brain; a little more blood than usual about dura mater; stomach and lungs natural; a little gastric fluid in former; thinks if Gullen died from the wounds it must have been from loss of blood; thinks injury to brain could not have caused death; thinks that a person would not die any sooner from such wounds than from an ordinary bleeding, with same loss of blood in both cases.

By a Juror—thinks it must be an injury to the brain to cause death from such wounds.

Direct Resumed—didn't notice an effusion of blood under temple; some of the physicians were inclined to think a man might have lived if not put into the water; there might or might not be water in the stomach if alive when put in the water; never examined body of a drowned person; speaks from the authorities; don't recollect any bloody mucus around the mouth; don't know whether such is general characteristic of drowned persons.

Cross Examined—Thinks a man with such wounds might have recovered; hardly think he could have walked down to the river; if loss of blood not enough to overpower the system, might have done it.

Don't know whether if he fell into water when nearly exhausted there would be fluid in the stomach; rather thinks there would not—if had been in liquor, or person would have struggled less; thinks the books give cases of persons drowned, and found with little or no fluid in the stomach—(An extract from Beck's, McD. Jurisprudence No. 2, page 206 was read on this point—witness agrees with it); a person of full habit drowned, there would be an engorgement of blood in Gullen's body than would have been if he died from loss of blood; is of opinion that he did not die from that cause; bleeding would relieve a person stunned by a wound on the head.

By a Juror—blood was effused between scalp and skull.

Dr. Seibert—saw body after brain was taken out; saw the wounds; membranes of brain somewhat, engorged; thinks that from the loss of blood and concussion of the brain, the person might have died; authorities thinks wounds of the head are not dangerous, as far as hemorrhage is concerned; persons may receive severe concussion of the brain, without the brain showing any change of appearance; signs of drowning are very strong; when all these are absent, the conclusion is that the person did not drown: this body had no such signs; besides the wound on the head, there had been a blow on the abdomen; appearance was black; such a blow, from its appearance, might have easily caused death;—thinks he did not die from drowning; he might easily have died from the wound.

Cross Examined—Any one of these blows might have produced concussion: there are no absolute signs of concussion of brain; it produces prostration of the nervous system; has had cases under treatment; was in Philadelphia Hospital; authorities mention cases where concussion of the brain and no change in its appearance: wound on abdomen might have been made by falling on something; thinks that was a very dangerous wound; it is difficult to judge about signs of drowning; hemorrhage from wounds on the head not thought particularly dangerous; nothing in the wounds that would produce apoplexy; striking the cold water might do it.

Timothy O'Brien—assisted to arrest Connaughty on Tuesday at Whalen's; examined the house the afternoon and next morning; found nothing; examined McDonald's house; found pants with mud on knees and blood on the thigh, fle-hblood; also a shirt with blood on it; also a woman's dress with patches of blood on it; (the clothes were here exhibited and identified); the pants hung on a line, the others were in a bundle rolled up in a corner; when Connaughty was arrested and was going with the officers, old Mr. Gullen came near them, he asked C. what had become of his son; C's first answer didn't recollect; G. then asked if he had been killed or what had become of him; C. said he was not killed, but (with an oath) he didn't get half what he deserved, and that he would come back yet; C. said that as they had arrested him, he would tell all.

C. was much excited; thinks he said he knew where Gullen was; made a remark to the effect that he could tell where G. was if he had a mind to; witness asked McD. questions, but he refused to tell; he said he'd rather suffer himself than have any body else implicated; that he expected he should suffer; Connaughty swore very hard at old Mr. Gullen when arrested; he was very much excited till he got back to the jail; thinks pants and cravat found on the body were at Doran's office; don't know what has become of them; Mr. Doran was the coroner on that occasion.

Cross examined—recollects distinctly that C. said he knew where Gullen was; C. said McD.'s wife said Gullen had abused her; that the officers had no business to arrest him; don't know whose clothes the ones found were.

(Mr. Doran states that the pants and coat were in his office at the inquest; he didn't think he had any charge of them; don't know where they are)

Afternoon, 2½.

Thomas Gullen—father of deceased; last saw him alone on Sunday, 15th of June last, about 7 P. M., at own house in 3d ward; deceased left; didn't ask where he was going; was not present when he was taken out of the river; he had just been placed on the planks; this was Thursday afternoon; knew the body; son was about 23½ years old; he was working on the plank road; had come in from work about a week before on account of a pain in chest; meant to go back next morning, 16th; had on black frock coat; black satin vest with white stripes, and gray pants; plush cap; knew he had money; don't know how much; son took out his pocketbook, with a roll of bills, and offered witness $10; put the money back in his pocket; it was a large roll of bills: this was Saturday evening about 8 o'clock; he worked for Mr. Hart from March 1849 to November 1850; he got $12 a month and board; his expenses were light. Conversed with Connaughty on Tuesday morning, saw him at noon on Monday; witness told C. he heard "John was badly abused last night about your place;" what John? asked C.; witness answered "John Gullen;" C. asked "who told you so?" witness answered "your son;" C. stooped down a spell, and then said "he was badly abused, he got a good licking," and then said it was done by McDonald and wife. Witness asked C. if he saw it done; C. said yes; witness said it was strange that C. didn't save the boy; C. at this, turned around with his back to witness, and gave no answer.

Had no more talk with C. till evening, then went to C's house; saw a dirty looking woman going from McDonald's house into Connaughty's—C. came out and asked if witness had found John; witness answered "no—he thought he was dead"; C. said "no, he's not dead, altho' he lost a quart or more of his blood"; witness said "John is dead"; C. said "no, he's safe enough, he's safe enough, I have his coat, waist-coat and cap in my house"; went into the house; it was dark; a candle was lit; the coat was brought—then a waist coat; witness said that wasn't John's; C. said it was; the cap was brought; C. said "the cap is wet, I washed it because it was dirty"; witness took the cap and coat away.

Saw C. on Tuesday morning near the alley;—witness asked to "see that waist coat again"; C. said "its none of yours"; the coat and cap were taken to Doran's office by officer Fitzgerald; has never seen them since.

Cross-examined—Don't know whether the money was good or not; some days before that John offered to let witness have $20 or 30 to help to buy a horse; don't know how much money he used while in the city; no one else listened to the talk between witness and C.; C. showed witness where he sewed up the vest; when witness said the vest was not John's, C. said he'd go and see if it was McDonald's; C. didn't say anything about a spree at McDonald's.

John had latterly been working with Mr. McKelvie, on the plank road for 2 months and 15 days; McKelvie had paid John all but $8; the balance he paid afterwards; McK. told witness that he had paid John.

Direct resumed—never received any money found on the body, and never saw the wallet since.

Cross-Examined.—A pocketbook, not a wallet, was found in John's trunk.

Direct again.—Called at Doran's office afterwards to get the cap and coat, but Doran said he didn't know anything about them; he said something about an officer taking them up to the jail.

Dr. Whitney.—Counsel supposes a case according to the testimony, and asks witness whether he could tell whether the person had drowned; witness thinks that such a person would not have come to his death by drowning; brain might have every appearance of health, and yet death have resulted from concussion; thinks that the concussion upon the brain, from the testimony, might well have been sufficient to account for death, and for the emptying of the right cavity of the heart; have examined cases of death from concussion of brain, where there was no change in appearance of the brain; a repetition of slighter blows might produce concussion, where a single blow did not.

Cross-Examined.—Could form an opinion from testimony of examining physicians; it would depend on his confidence in those who examined; (witness is referred to an opinion in Taylor's Medical Jurisprudence, and explains his views of it:) should expect such a concussion to prevent the person from getting up and walking off rapidly.

By the Court.—If such a person did get up and walk off, and be found dead after a couple of hours, should think the death the result of the blows.

Direct Resumed.—From the testimony, think the deceased must have been dead, or in a fainting fit, when put in the water.

Mary Sheron.—11 years old; questioned as to her knowledge of the oath, and sworn. Knows Connaughty; heard of Gullen's death; don't remember how long ago it was; knew it on Tuesday; saw C. in the streets Monday evening at the corner by Mrs. Thornby's house; a man was with him; C. said "we must keep the secret;" did not hear him say any more; this was before dark; saw Mrs. C. near them and a little boy with white hair; saw this man who was with C. outside of Mr. Doran's office window; hasn't seen him since; wouldn't know him now.

Cross Examined—never saw the man who was with C. before; heard the remark as she was going past; didn't notice Connaughty's clothes; the other man had on a snuff-colored coat and a cap; noticed him because he was nearest; Mrs. St. John came for her to go before the coroner's jury, lives at Southport; Mr. O'Brien brought her here in the boat; he told her she had to come to this trial; he did not tell her what to swear to; he asked if she remembered what she swore to before; hurried home on that evening because it was getting dark.

Patrick Leahy—knows Connaughty; heard of death of Gullen; saw C. the day after; it was between 8 and 9 o'clock; C. came into witness' place smoking his pipe; C. asked after a while if witness "was murdering that man last night;" witness asked who the man was; C. said no more but began to smile; witness lived near the corner of Jefferson and Huron Sts.; was not at home on that Sunday night.

Cross Examined—No one there with C.; saw no letter in his hand, hadn't heard of any disturbance.

THOMAS KEOGH—saw body taken out of water; describes the clothes; suggested that the pockets should be searched; they were searched; there was a 25c piece in one of them; a knife; thinks a pencil and key; nothing else was found.

WM. K. ARMSTRONG—Heard of the death of Gullen; went around with the crowd to the houses; saw a great deal of blood around the place; saw a box with the heads of chickens piled in it, and a basket with feathers in it; saw a piece of brick with hair on it, and very bloody; with something like a piece of scalp sticking to it; had it in his hand; some one came behind witness, saying "damn you, what in hell are you showing that for;" reached over and took it out of witness's hand, and ran; the man was in his shirt sleeves; witness tried to catch him, but couldn't; didn't see his face; can't tell who it was; witness' son saw the man. Thinks the hair was light colored. On the south side of the store in McD.'s house, there was a large spot of blood on the mopboard, also another on the floor; witness's son is not here; left him at home in the morning; he has gone away without witness's knowledge; the boy knows he has been subpoened here; thinks he has gone away to play, or been induced to leave.

HOOFLAND'S GERMAN BITTERS.

THESE celebrated Bitters prepared by Dr. C. M. Jackson, 120 Arch-st., Philadelphia, are performing astonishing cures throughout the whole country. We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complaint, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of, and many others to which flesh is heir to. Shocking Railroad Accident.

Boston, May 21.

This evening as the carriage of Wm. Sawyer an eminent lawyer of Charlestown, and late Postmaster, was attempting to cross the track of the Pittsburgh R. R. at Waverly, the downward northern train running at the rate of 30 to 40 miles an hour came up, demolishing the carriage and instantly killing Mr. Sawyer, his eldest daughter and the driver.

Mrs. S. and two other daughters were injured. Mrs. Sawyer had her skull fractured so that the brains protruded—not expected to recover. The two daughters, it is though, are not mortally wounded.

Washington, May 25

There is a probability that President Fillmore will abandon the idea of foreign the strict observance of the Tehuantepec Treaty by Mexico, and that negociations will be entered for a right of way across the Isthmus, in accordance with the suggestions of President Arista.

SENATE.—Numerous petitions in favor of the passage of the Homestead Bill were presented—other petitions were presented, and the usual routine of business were gone through with.

HOUSE.—Mr. Disney asked the consent of the House to introduce a joint resolution to provide vessels to bring to this country Irish exiles from Australia, on their liberation by the British government. Mr. Jones, of Tenn., objected, and leave was not granted.

R. G. Scott, of Richmond, Va., last week addressed a letter to several of the prominent democratic candidates for the Presidency, requesting to know their opinions as regards the compromise measures, and if elected whether they would veto any bill passed by Congress repealing or impairing the working of the fugitive slave law.

We have the answers of Houston, Rusk, Cass, Douglass, King and Dickinson, decisive in favor of maintaining the law, even if in doing so it shall become necessary to exercise the veto power.

The Senate yesterday decided to amend the deficiency bill by making an appropriation of $90,000 to defray the expenses of the different U. Courts.

"IN THE MIDST OF LIFE, WE ARE IN DEATH."—This morning about eight o'clock, Mr. S. B. Goodsell, of Geneva, Wisconsin, fell dead upon the Wharf of the Central Railroad Company. He was intending to go upon the Steamer that was about sailing for Milwaukee, and hastened back to the "American House" for something he had forgotten. Being in a feeble state of health, the excitement and exercise are supposed to have been the immediate cause of his death.—*Chicago Journal* 27inst.

STEAMER TELEGRAPH BURNT.—We learn by telegraph from Sandusky that the steamer *Telegraph* of this city, was burnt off Sandusky light house last evening, and it is supposed that all on board of her lost their lives, and nothing has been heard from them. The cause of the fire is not yet known.

P. S. Since the above was in type, we learn that the officers and crew have arrived here safe.—*Toledo Blade* 26 inst.

Terrible Slaughter at Klamath—Forty Indians Killed, &c.

Another battle was fought on the Klamath river between the miners and Indians on the morning of the 12th of April.

Yesterday I was informed by a miner of my acquaintance, just up from Klamath, that an Indian rancheria, located in Seiad valley fifteen miles below the mouth of Scott river, was stormed, and forty Indians killed, and their houses burned to the ground.

The Klamath Indians, for a distance of forty miles below the mouth of Scott river, have been for a long time very troublesome to the miners and packers.

At Happy Camp, which is situated twenty miles below Seiad Valley, the miners passed a law among themselves, that no Indians should be allowed to come to this place; if they did they were to be shot instantly. When the Indian Agent, McKee, passed up this river and formed a treaty with these Indians, the miners informed him of the law which they had made for their protection against Indian depredations. Mr. McKee communicated this to the Indians.—Last January an Indian from Seiad Valley said he was not afraid to go down to Happy Camp, and down he started, and no sooner had he arrived there, than he was shot dead whilst crossing the creek, near the camp. Last week the Indians made preparation to fight the miners. The squaws started for Scott Valley, and the Indians sent word down to the Happy Camp miners that they were going to kill three of their men for the one they had killed. The Happy camp miners, on hearing this, came up to Long Bar, within four miles of the Indian ranch. Here they were joined by another party, and marched up in the night, and at early dawn surrounded the Indian rancheria. One of these Indians had eight balls shot through his body before he fell to the ground. Amongst all the dead there was only one squaw found, and she was the Indian chief's daughter.

During the battle two white men were shot with arrows; one of them was shot in the thigh and the other in the breast; the arrow passed between two of his ribs. Their wounds are not considered mortal. The men are now improving, and in a short time will be able to resume their labor. What this will end in, time will determine.—*Cor. of the Times and Transcript.*

A HARBOR AS IT IS.—Without "material aid" from artificial sources, we have a harbor that will at all times accommodate vessels of moderate draft, affording ample protection in the most severe weather. Hitherto, schooners of the largest size have passed in and out with full freights, but not until recently has the experiment been made by a steamboat. On Sunday morning the inhabitants of the town were somewhat surprised to see the Steamer *Telegraph*, occupying a comfortable berth in the river. Capt Brown concluded to try the channel, and without any difficulty, passed over the bar, finding two feet of water to spare. She lay here until Monday, 2 o'clock, P. M., and passed out with the same freedom.—*Manitowoc Herald.*

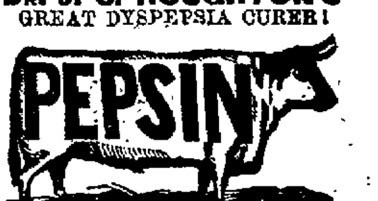
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE!

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

DR. HOUGHTON'S PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

NOTICE EXTRAORDINARY—GREAT IMPROVEMENT.

JOHNSON'S

Chemical Hair Invigorator,

TO prevent baldness, and to restore the Hair that has fallen off or become thin, and to cure effectually scurf or dandruff. Prepared only by S. JOHNSON, Jr., 151 East Water Street, Milwaukee.

The subscriber respectfully informs the public, that he has made recent improvements in the manufacture of the celebrated CHEMICAL HAIR INVIGORATOR. It was originally intended more as a restorative for DISEASED hair, than as a BEAUTIFIER, but by a late discovery, the proprietor is now manufacturing it on a more extended scale, and in such a manner, that without deteriorating from its beneficial qualities, it renders it more desirable as an appendage to the Toilet.

The INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended, with a most delicate, silky and glossy moisture for the hair never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair; entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy and glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads it lays the foundation for a good head of hair.

N. B.—Those having Invigorator on hand may exchange for the Improved.

THE WORLD'S FAIR
PREMIUM SAFES.
DEPOT,
Green Block, Water St., (*Between Maiden Lane and Wall Street,*) NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Stillwell & Montross, and Mr. J. L. Watkins, in the Fulton street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co. in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof safes combined

SALAMANDER SAFES.
WILDER'S PATENT AND RICH'S PATENT COMBINED.

$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York.—Three Stores and their contents destroyed. Deeds before words!

RICH'S SAFES AGAIN!

ELEVEN SAFES of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER.
THE FIRE IN FLETCHER AND PEARL STS., NEW YORK.

New York, Dec. 20, 1851.

Messrs. STEARNS and MARVIN, successors, to C. Rich & Co., No. 146, Water Street, New York—Sirs, when the fire was consuming my place of Business, No. 216, Pearl Street, I was absent in Rensslaer County, testing a new cleaning apparatus in connection with my Excelsior Thrasher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 54 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same office, on the second floor, from which they fell upon crates of earthen ware in the cellar, the ruined safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,900, yet the salvation of my books in your Salamander, with the representatives of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the now safe purchased of you, and explain its merits, at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 216, is erected.
Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safe in use) to call at the depot 146 Water street, New York, to see the inferior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

Orders for Burglar Proof Vaults, and Vault Doors, promptly and faithfully executed.
STEARNS & MARVIN, [successors to Rich & Co.]

Owners of the exclusive right of Rich's Patent for the whole of the United States, and the only makers of Salamander safes combining both patents, commonly called Rich's safes, or Wilder's Salamander Safes, with Rich's Improvement.

MISCELLANEOUS.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTING, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Benthem, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to opening in this market. HAWKINS'
STAVE DRESSING
MACHINE.
PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey
BARRELS,

and PIPES or HOGSHEADS, at the rate of
600 Whiskey or 800 Flour Barrel Staves PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters, and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public, that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water*, and not for a hotel at a fashionable watering place. G. GRAESSLE'S
PRESSED, FIRE-PROOF TILING.
CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by ocular inspection of the excellent quality of the same.
ENNO MEYER, Druggist, 374 W. Water-st., 2nd ward.
Milwaukee, Feb 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG, Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.
OTTO SCHWARTZ, VICTOR SCHULTE, Architects & Builders.
Milwaukee, Feb. 5, 1852.

To G. Graessle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.
G. W. MYGATT, Architect.
Milwaukee, Feb. 11, 1852.

STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. OF COURSE IT DID, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(*Which received the First Premium at the State Fair, lately held at Janesville.*)

Possesses great advantages over every other stove, for plain thus and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with but the fuel, not consuming over four cords of wood in one year.

The **TRIUMPH**, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The **PREMIUM** is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The **JUNO PARLOR** is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The **RADIATOR** is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. Ketchum & Comstock, HATTERS,

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

PATENT MEDICINES

Graefenberg Medicines
HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their *force* over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions in the use of the medicines.

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *as it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflamation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION.—An unprecedenting article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belledonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.* If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence. "In the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,—
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive.—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been tried by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25 "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and is in all respects we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.
